NET-5 DL-BR 165

- Live, recorded or scheduled Messages
- Multicast group paging with paging prioritization
- Speech generator for announcements

Get rid of cost increasing 100V-cabling and stacked amplification. Be flexible with centrally managed and remotely controlled network speakers. The 2-way bassreflex ceiling speaker NET-5 DL-BR 165 is equipped with an 15W internal amplifier. The PoE-powered speaker is compatible with an universal POE-switch.

Each speaker is addressable and capable of playing clear audio from a multicast source.
Stream your live, recorded or scheduled messages to single speakers or speaker groups. Simple and easy mounting of the speaker is done by screws.

NET-5 CONTROL enables a load of dedicated features such as music playback and voice messages simultaneously broadcasteted, configuration of 1200 speaker groups, paging priorization, adjustable volume for each speaker, custom playlists and
scheduled broadcasts, text to speech generator, and much more.

If you don't like to use a headset for announcements you can choose the desktop paging microphone NET-5 CALL.
